Computer-Assisted Language Learning for Deaf Children: a Natural Language Interface System (Paperback)

By Robert Ward

Lulu.com, United Kingdom, 2010. Paperback. Book Condition: New. 297 x 210 mm. Language: English . Brand New Book ***** Print on Demand *****.Originally a dissertation for the degree of Master of Science in the Department of Computation, UMIST (University of Manchester Institute of Science and Technology), U.K., 1981. This is a scanned copy of the original, January 2010. The dissertation specifies a set of computer programs to allow learners to interact with a computer through written language. It sets out the computational foundations for an approach later investigated in a Ph.D. thesis, Natural Language, Computer-Assisted Learning and Language-Impaired Children , by the same author, at the Department of Psychology, University of Hull, U.K., in 1987.

Reviews

This ebook is so gripping and exciting. it was writtern very flawlessly and valuable. I found out this publication from my i and dad suggested this ebook to understand.
-- Leif Bernhard MD

A very amazing publication with perfect and lucid information. We have read through and that i am certain that i will planning to study once more yet again in the future. You will not really feel monotony at anytime of the time (that's what catalogues are for about should you question me).
