

Climatology of North Carolina; (From Records of 1820 to 1892) Including the Fifth Annual Report of the North Carolina State Weather Service, for 1891 (Paperback)

By North Carolina Station

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1892 Excerpt: .coast caused rain in the southern part of the State, with north-east winds. The fifth storm for the month appeared in Galveston on the 23d, and reached New England by 8 p. M. of the 24th. Low areas six and seven also passed far to the north-east of this State. The month ended with clear, cold weather, brought by the eighth high area. The percentage of the whole number of storms passing over the United States, which influence the weather in North Carolina sufficiently to produce heavy rains or high winds is, for December, 40.9 per cent.; 17.8 per cent, of these pass over the State, or below, or near the coast. Hail or Sleet.--Light hail at Louisburg on the 29th. Thunder-storms.--On 29th at Wilmington, Weldon, Norfolk, Willeyton, Raleigh, Littleton, Louisburg, and Wadeville. Distant lightning in the south-east observed at Lenoir and Mount Airy on the...

Reviews

Completely among the best pdf I actually have possibly read through. It is probably the most awesome pdf we have read. You wont really feel monotony at whenever you want of your time (that's what catalogs are for about in the event you ask me).

-- **Prof. Martine Lesch**

Most of these pdf is the ideal pdf available. It is definitely basic but shocks within the 50 percent of your book. I am just easily could get a delight of reading through a written book.
