Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Memorial Observances of William McKinley by City of Worcester The following bulletin was issued by the Presidents physicians at 10.30 p.m.: The condition of the President is unchanged in all important particulars. His temperature is 100.6; pulse, 114; respiration, 28. When the operation was done on Friday, it was noted that the bullet had carried with it a short distance beneath the skin a fragment of the President s coat. This foreign material was, of course, removed, but a slight irritation of tissues was produced, the evidence of which was apparent only to-night. It has been necessary, on account of this slight disturbance, to remove a few stitches and partially open the skin wound. This incident can not give rise to other complications, but it is communicated to the public, as the surgeons in attendance wish to make their bulletins entirely frank. In consequence of this separation of the edges of the surface wound, the healing of the same will be somewhat delayed. The President is now well enough to begin to take nourishment by the mouth in the form of pure beef juice.
