Instinctual Intelligence is the first book that explores the evolution of human instincts. It offers uniquely modern approaches to align the passion and power of our instinctual heritage with the more enlightened possibilities of human life. Get to understand how of our basic instinctual systems- self-protection, social connection, resource gathering, playfulness and sexuality, and survival responses- function in everyday life. Learn how the full expression of instinctual intelligence becomes restricted by the time we reach adulthood. Drawing on leading-edge research in evolutionary neurobiology, clinical psychology, and spiritual development, explore how athletes (Tiger Woods), musicians (Madonna), business leaders (Oprah), and spiritual practitioners (Dalai Lama)- and learn how they achieved mastery in their chosen fields. Each person's instinctual intelligence simultaneously evolves the biological, social, cultural, and spiritual fabric of humanity.
