CARNIVORES OF BRITISH COLUMBIA

[DOWNLOAD](#)

Royal British Columbia Museum. Paperback. Book Condition: new. BRAND NEW, Carnivores of British Columbia, David F. Hatler, David W. Nagorsen, Alison M. Beal, Carnivores are mammals that hunt and eat other animals, mostly herbivorous mammals. Humans share a long history with carnivores. We fear carnivores as predators, revile them as competitors, exploit them for their fur, or admire them for their grace and beauty. This book provides comprehensive, up-to-date information on the 21 species of wild terrestrial carnivores in the province, including the coyote, grey wolf, red fox, American black bear, grizzly bear, northern racoon, sea otter, wolverine, northern river otter, American martin, fisher, ermine, long-tailed weasel, least weasel, American mink, American badger, striped skunk, western spotted skunk, cougar, Canada lynx, and bobcat. This book describes each species, with illustrations of whole animals and skulls. For each species, it discusses distribution and habitat, feeding ecology, social behaviour, reproduction, issues of health and mortality, abundance, human uses, conservation and management. This book will be an important educational reference for the general public, schools, naturalists and wildlife biologists.
